Off-The-Job Training Hours

Off-the-job training is training which is received by the apprentice, for the purpose of achieving the knowledge, skills and behaviours of the approved apprenticeship referenced in the apprenticeship agreement.

The minimum volume of off-the-job training for all apprentices (full-time, part-time, term-time), is published on the front of each apprenticeship standard.

To be eligible for government funding the provider must ensure that an apprentice with no relevant prior learning receives at least the published volume of off-the-job training hours for the standard.

The published figure can only be reduced if there is evidence of relevant prior learning from the apprentice's initial assessment.

Your planned Off-the-job training may be higher than the minimum.

Published minimum off-the-job training: 557

Volume of RPL: 0

Minimum reduced by RPL: 557

End Point Assessment

End Point Assessment (EPA) is the final assessment of an apprentice at the completion of their apprenticeship. It is designed to be an objective and impartial assessment of an apprentice's knowledge, skills and behaviours. The EPA is carried out by an End Point Assessment Organisation (EPAO), a third party organisation, separate from the Employer and Training Provider, that conducts the final assessment of the apprentice and determines the final grade.

When the apprentice has completed their planned period of training, there will be a short period of time where your Training Provider with the Employer and apprentice will assess the apprentice's progress this is called a Gateway Review. The meeting will determine whether or not the Apprentice is ready to undertake the End-Point Assessment.

End Point Assessment Organisation (EPAO) : Chartered Institute of Marketing

Estimated Gateway Meeting Review Date: 30/04/2027

EPA Period: 31/05/2027 - 31/08/2027
